

Kardex AutoStore™ Xperience Tour

EMIL FREY | Kassel, Germany
20 January 2027

Experience AutoStore™ live in operation and discover how Emil Frey Logistik and Kardex automate automotive spare-parts handling.

Automating automotive spare-parts logistics with AutoStore™

Emil Frey Logistik uses AutoStore™ by Kardex to automate the storage and picking of automotive spare parts. The solution combines high-density storage with ergonomic workstations and intelligent picking support. The result is a compact and flexible solution designed to reduce walking distances, improve workplace ergonomics, and support fast and reliable order fulfilment.

The customer

Emil Frey Logistik GmbH manages automotive spare-parts logistics for several vehicle manufacturers. At its German logistics sites, spare parts are stored, picked, and shipped to support a fast and reliable supply chain.

The solution at a glance

The AutoStore™ solution featured in the current Emil Frey case study includes:

- 13 R5 robots
- 7 ports
- 22,000 storage bins
- 4 ports equipped with the Kardex Intuitive Picking Assistant (IPA)

The results

- Shorter walking distances through goods-to-person picking
- Improved ergonomics at the workstations
- Efficient and precise order processing
- High-density storage and optimal use of available space
- Intuitive picking support with Kardex IPA
- Flexible AutoStore™ design that can adapt to changing requirements
