

Kardex AutoStore™ Xperience Tour

Footshop | Czech Republic, 22 October 2026

E-commerce meets warehouse automation

At its Prague warehouse, Footshop, one of Central Europe's leading sneaker and streetwear retailers, has taken an important step in scaling its logistics operations. Together with Kardex, Footshop implemented an AutoStore™ solution designed to increase storage capacity, streamline warehouse processes and create a scalable foundation for future growth.

Join us for an exclusive Xperience Day and go behind the scenes of the project.

The customer

Footshop is a leading Central European retailer specialising in sneakers and streetwear, serving customers through both its e-commerce business and physical stores. As the company continued to grow, Footshop needed a warehouse solution capable of supporting increasing order volumes while making more efficient use of the available space.

The solution at a glance

The AutoStore™ system implemented by Kardex includes:
- **24 R5+ robots**
- **52,600 bins**
- **2 CarouselPorts, 2 ConveyorPorts**
- **Integrated Picking Assistant**
- A solution designed to store up to **8 shoeboxes per bin**

What to expect

- **The Footshop automation story first-hand**
Hear directly from Footshop and Kardex about the journey towards warehouse automation, the challenges behind the project and the decisions that shaped the final solution.

- **AutoStore™ in live operation**
See how the system supports Footshop's daily warehouse processes and discover how automation can increase efficiency, optimise storage capacity and support future growth.

- **Exclusive warehouse tour**
Go behind the scenes and experience the AutoStore™ system and connected processes in operation.

- **Project handover & celebration**
Join Footshop, Kardex and AutoStore™ as we celebrate an important project milestone and the successful launch of the new automated warehouse solution.

- **Exchange with the experts**
Meet the people behind the project, ask questions and connect with Footshop, Kardex, AutoStore™ and other logistics professionals.

Agenda

The detailed programme will be shared with confirmed participants by email.

Participation

Participation is free of charge. As the number of places is limited, attendance is subject to confirmation. You will receive a confirmation by 8 October 2026 informing you whether your participation in the Xperience Day has been confirmed.
